

SHARQ EXPLORER

Created to fit the requirements of a state-of-the art mobile river home or office, Sharq is a unique luxury river vessel with excellent sailing characteristics

FOR A LIFE CHANGING EXPERIENCE THAT OFFERS STYLE, COMFORT, DARING LOOKS AND POWERFUL PERFORMANCE

Not for the fainthearted, it requires an adventurous spirit, but brings many rewards. Sharq offers 105m2 of loft-like live/work space with plenty of storage, 360 degree views and ample light. Despite its size, the vessel can easily be maneuvered with the powerful bow and stern thrusters.

Created to fit the requirements of a state-of-the art mobile river home or office, Sharq is a unique luxury river vessel with excellent sailing characteristics

Each floor brings something different. Large deck windows, the afterdeck, lounge deck and foredeck are designed to offer the delight of changing views. The lower floor with its portholes and internal hatches is aimed to create cozy, intimate nooks. The thermal insulation is of excellent quality and the extremely efficient radiators can function as coolers in the summer, so the boat is well prepared for the extremes of European climate.

As with any luxury product, the key is personalization. The layout, interior design, outfitting, finishes, materials – it's all there to be customized to your wishes.

The Sharq Explorer / Traveller are
build according to the Qrooz concept
